

ABOUT STYROLUTION

Styrolution is the leading global styrenics supplier with a focus on styrene monomer, polystyrene, styrenic specialties, and ABS. As a joint venture of BASF and INEOS, Styrolution combines the key styrenic assets of two of the largest chemical companies in the world, with world-class production facilities, complementary competencies and portfolios, and more than 80 years of experience. Styrolution helps its customers succeed by offering the best possible solution, designed to give them a competitive edge in their markets. The company provides styrenic applications for many everyday products across a broad range of industries, including automotive, electrical/electronics, building and construction, household appliances, toys/sports/leisure, packaging, healthcare and diagnostics. In 2011, pro forma sales were at 6.6 billion euros, resulting in an EBITDA before special items of 317 million euros. Styrolution employs about 3,400 people and operates 17 production sites in ten countries.
